

In the Drawings:

For purposes of clarity, applicants propose to amend Fig. 10F of the drawings as illustrated in the attached photocopy of that view by substituting new reference numeral 831 for the "Attachment" screen originally denoted 832 and leaving the reference numeral 832 to designate the "Add" icon.

In the Claims:

Please cancel claims 91-103 and 113-120 without prejudice to their further prosecution and amend claim 104 in the following manner:

Sub 17
B11

104. (Once Amended) A digital image management system comprising:

an electronic storage facility for providing storage for high resolution digital images of a plurality of unrelated image providers, at least some of the high resolution digital images stored in the electronic storage facility being used to develop corresponding low resolution copies, each high resolution digital image having a higher bandwidth communication requirement than each of the corresponding low resolution copies, the electronic storage facility storing the high resolution digital images of a first one of the image providers such that the high resolution digital images of the first image provider can only be accessed by authorized users identified by the first image provider and such that the high resolution digital images of the first image provider are transparent to other unrelated image providers that are not authorized users identified by the first image provider;

means for notifying an authorized user identified by the first image provider that the authorization has been authorized to download a low resolution copy of the high resolution digital image, wherein the notifying means transmits at least a portion of a pathname associated with the low resolution copy to the authorized user;

means for allowing the authorized user to download the low resolution copy of the high resolution digital image of the first image provider from the electronic storage facility to a first location;

means for electronically routing the high resolution digital image to a printer in response to a request from the authorized user.
